

Initiatives supported in 2022

Project 1 - Indipendente-mente

Area: **Social - Disability Welfare Services**

The **Cooperativa Andirivieni** will be the promoter of an innovative experience of autonomous living and **neighbourhood solidarity** between some young people with disabilities and the local resident where the project will be launched. Through a system of accompaniment to living, community animation and with the tool of self-mutual help, the young

people will have the opportunity to live outside the family nucleus.

The project aims to promote in the Canavese area a philosophy of living that enhances the **reciprocity of exchanges**, by those who are more fragile and those who are less so, encouraging them to perceive themselves as bearers not only of needs, but also a resources for themselves and for others.

The allocation of €20,000 will be functional for the promotion of innovative and participative forms of living, the accompaniment to employment activities, and the training of operators and volunteers.

The project will involve 24 young people in the Cuornè housing unit and 16 in the Ivrea one.

Project 2 - Spazio Blu

Area: **Social - Disability Welfare Services**

SpazioBlu is an educational project dedicated to the world of autism that was born from the meeting of four different realities rooted in the Canavese territory, including the Ivrea and Canavese group of the National Association of Parents of People with Autism- ANGSA.

The objective is to **develop skills and autonomy in individuals with autism spectrum disorders and to seek the wellbeing of their families**, through customised and targeted paths, both for the individual and for the entire nucleus in which they live.

Actually, SpazioBlu is attended by 42 children and 20 young adults.

The allocation of €5,000 will guarantee a **transport service** for the many families in the alto canavese and calusiese area who wish to take part in the activities but are unable to reach the Ivrea centre independently.

Progetto 3 -Mixed Ability Sports

Area Social - Promotion of Inclusive Sport

Chivasso Rugby Onlus is the nationally and internationally recognised pioneer of **Mixed Ability Sports**, an innovative approach aimed at removing barriers to participation in sport for people with disabilities.

Through the co-presence and co-interaction of individuals with different abilities, anyone has the opportunity to train, play and be included in a single category, the one dictated by the discipline itself.

The disbursement of €13,000 will be used to engage the rugby team members for the 2022-2023 season in a club sports activity in which they will bring the Mixed Ability model to 30 clubs in Piedmont; participate in ten friendly trips of the rugby team; promote the emerging Mixed Ability in paddling activities in the Turin area.

Project 4 - Botanical Garden H[AS] 9[AW]

Area: Social – Education and employment of disabled persons

Campo Aperto SCAS project aims at the realisation of an **educational vegetable garden 4.0 within the Olivetti context of Villa Girelli**.

The objective is the valorisation of the area and its opening to the public, in order to bring back the industrial spirit of research, innovation and experimentation.

The **Orto 4.0** aims to become an educational reference point where **sustainable agriculture, food**

education and a place where schools, citizens, farmers and entrepreneurs will be able to 'touch' a new way of horticulture, inclusion and sustainability.

It will provide employment for people with motor difficulties who will be able to cultivate their own plot, thus making agriculture open and inclusive also to people who, until now, have not had the opportunity to approach this activity professionally.
